Source for your Global Business & Services

Company Profile

UZM ENGINEERS is a professionally managed organization engaged in the engineering services and exporting high quality of Natural stone such as Granite slabs, Tiles, Marbles slabs, Tiles sandstone, Limestone tiles flooring slate stone and stone garden decorative items and for buyers around the Globe. Partnering with various mining factories and more than hundreds of mining quarry we are doing large scale export in African and other Countries

UZM ENGINEERS Pvt. Ltd is engineering consulting companies based at JAIPUR NEW DELHI operate as Civil/Structural consultancy providing high end engineering services with innovation, creativity and superior quality.

We are passionate about our profession, our projects and our achievements. We pride ourselves on running a lean, efficient operation that offers cost-effective specialist civil and structural engineering and design-related services for all projects.

Our Mission

To be one of the dependable Global Players in the intercontinental market and establish business cooperation through relationship building.

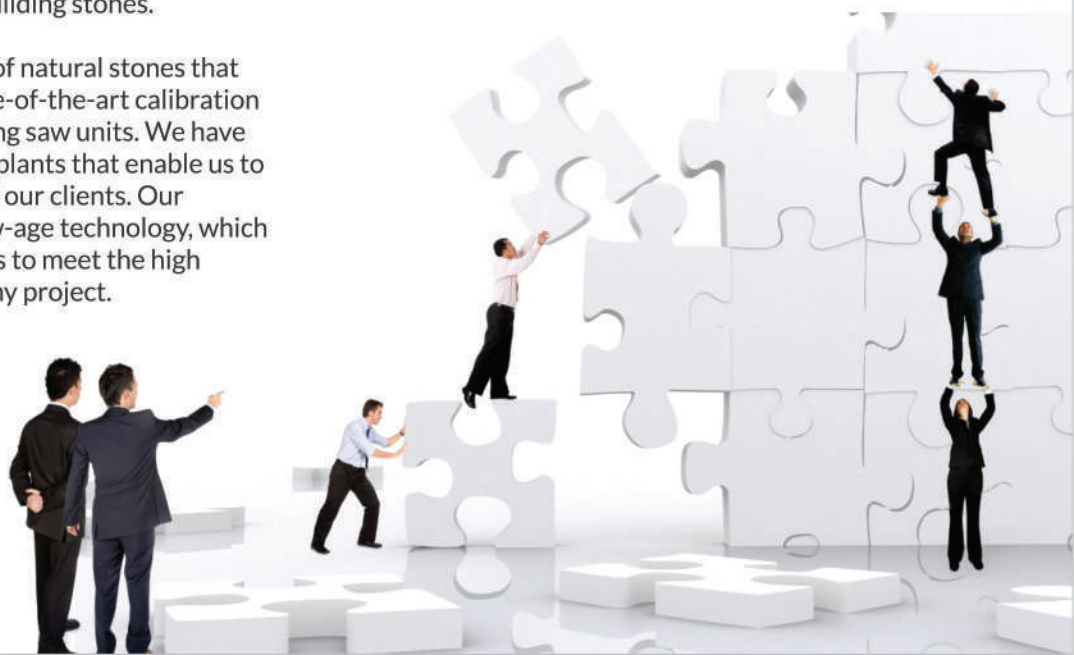

UZM is an exclusively professionally managed company engaged in the dealing of a wide range of stones available in various sizes and finishes. Our range of natural stones and natural building stones includes Granites, Marbles, sandstones, Slate, Lime, stone products.

Our Vision

To be a world class Industrial and Infrastructure Consulting Engineering and Project Management Company providing a service that will add valuable solutions to the operations of its clients in commerce, industry and public sector.

We source different stones directly from quarries and process them at our factory in various finishes like natural, honed, polished, calibrated, brushed, sandblasted and tumbled in hand cut or machine cut edges. We have a team of experienced professionals looking after processing, dressing, inspecting and shipment of these natural building stones.

We have exclusive quarries of natural stones that are associated with our state-of-the-art calibration & polishing plant and our gang saw units. We have sophisticated stone-cutting plants that enable us to cater to the specifications of our clients. Our calibration plant utilizes new-age technology, which is capable of producing items to meet the high precision requirements of any project.

Granites

Granite is a very hard and lustrous stone that is highly durable, stain resistant and scratch resistant. Its crystalline texture and large variety of beautiful colors makes it the favorite stone for a host of applications. It is one of the popular natural stones for making calibrated tiles, structural building slabs, memorials, kerbs and landscape garden stones.
